PHILIPS

Small enough to carry. Big enough to carry you anywhere.

Count on Philips to bring you exactly what you're looking for in monitoring patients during transport. The IntelliVue MP2 is an amazingly light, flexible, and durable transport monitor that's also amazingly easy to use. It's affordable, small in size, and big in capability.

And best of all, it's from Philips, so you have the world-class quality, latest in design, and clarity of technology to make it easier for you to focus on the patient, not the monitor.

Resourceful for your clinical needs

Now getting from Point A to point B is as easy as 1, 2, 3 with the fastest and simplest way to monitor a patient during transport. A flexible display design is configurable to your environment and can display up to 3 waveforms. The system features a removable 3-hour battery.

IntelliVue MP2 is so compact, it's easily carried by patients in low-acuity settings, allowing patients the freedom to roam, and you the freedom to do your best for them.

Resourceful in industry-leading measurements

Features a crisp and colorful touch screen with 3.5" display, as well as seamless electronic recording of ECG, SpO₂, and NBP.

Resourceful in sustainability

IntelliVue MP2 is a Philips Green Flagship product, meeting rigorous environmental standards in manufacturing and use.
